About Me

I am a 35 years old computer science student at the Open University.
I have been Programming for many years, both as a hobby and as a working tool.
Most of the programming I did was in the field of web development, but I have great enthusiasm for learning everything related to computers and technology.

Experience

Tutoring Business

Since Jan 2018

- Online Tutoring of hundreds of students from all around the country.
- Created an Online Bagrut completion program.
- Created an online [E-Learning platform](#).

IDF Officer in the CBRN branch of the medical corps (Atuda)

2009-2015

Served at the CBRN Medicine branch, which deals with the medical treatment of injuries sustained from non-conventional weapons.
I wrote academic reviews mainly in the field of toxicology and participated in research of new possible treatments.

Education

Open University— second year student towards a B.Sc in **Computer Science**
(grade: 94) 2022

Bar Ilan University — **MBA in Finance** (grade: 90) 2011-2013

Tel-Aviv University — **B.Sc in Chemistry** (grade: 93 Magna Cum Laude)
2006-2009

Skills

Languages: English - High Proficiency , Hebrew - Mother tongue

Programming: SQL, JavaScript, PHP, Node.js, React, HTML, CSS.

Utilities: Git, Vim.

Excellence

Certificates of Excellence from the exact science department in Tel-Aviv University 2007 & 2009

Further Courses

Algorithms Part 1 by Princeton University (Coursera)

R Programming by Johns Hopkins University (Coursera)

Game Theory by Stanford University (Coursera)

Game Theory 2: Advanced Applications by Stanford University (Coursera)
